EDITOR'S *note*

26 YEARS LATER

This month marks the beginning of our 26th year of publishing ***PREVIEWS***. Since 1988, we've brought you some of the coolest stuff on Earth, always up to three months in advance of their release. That's a lot of stuff… like, circling the Earth numbers. I tried to do the math… it made my head hurt.

We recently moved our headquarters a couple of miles down the road from our previous location, and it happened right in the middle of this issue's cycle, which didn't make anything any easier. Tack on the fact that we're losing a day thanks to the Independence Day holiday (it's July 1st as I write this) and you just know we were having a swell ol' time.

So, as we put this issue "to bed", I'm anticipating my exit for the West Coast and the San Diego Comic Con. By the time you're reading this, the 2013 Comic Con will be another one for the history books, and I'll already be back here, to work on our September issue. You know, ***PREVIEWS*** #300?

Our 300th issue has been on my mind for a long time. It's a big-ass landmark that few publications have seen. We're joining a special fraternity of publications who have met and exceeded the 300 issue mark, and I'm proud to have been a part of it all these years.

Two final notes. This month we unveil the featured titles for this year's Halloween Comic Fest, and unlike last year, it will be treated like Free Comic Book Day, with the participation of your local comic shop! On Friday and Saturday, October 26-27, participating retailers will be opening their doors for trick or treaters, readers, collectors, and the uninitiated alike to spread the word about comic books, and a little Halloween cheer! See page 25 of this issue for all the details!

And secondly, directly following this month's *Books* section, you'll find the newly minted *Magazines* section! Yes, we've once again split the Books and Magazines listings into their own sections, and added a special monthly spread featuring offerings by the UK's Eaglemoss Publishing, who debut new *Marvel* and *Star Trek* mags this month!

So until next month — and issue #300 — be safe, stay cool, and enjoy yourselves out there!

Your Pal @ ***PREVIEWS***,

Marty

PAUL POPE

Paul Pope is the acclaimed author-illustrator of *Batman: Year 100*, *Heavy Liquid*, and *100%*. Known for his frenetic, high-energy artwork and action-packed, genre-bending storytelling, Pope has won three Eisner Awards. His latest book is the epic *Battling Boy* from First Second Books. He lives and works in New York City.

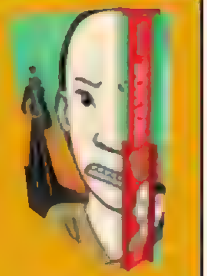
Paul Pope, what are your reading?



Boxers & Saints by Gene Yang—My label-mate Gene Yang's latest book is actually a diptych — two books revolving around the history of the Boxer Rebellion and the mysterious role the mythical Chinese gods play during the battle. As with *Battling Boy*, this season he and I are both releasing books involving mythology and young heroes, both with :01 First Second Books.

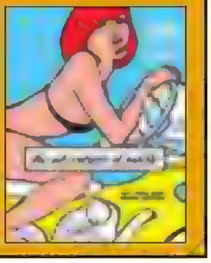
The Complete RASL HC (JUL130970)



The Adventures of Jodelle by Guy Peellaert—This book came out earlier this year, but it's my vote for best book of 2013. It's a fantastic new edition of the classic Pop Art masterpiece which went on to influence a lot of late '60s media. Peellaert was a bona fide multimedia artist who turned to comics, invented new coloring techniques, and created a surreal and sexy masterwork.

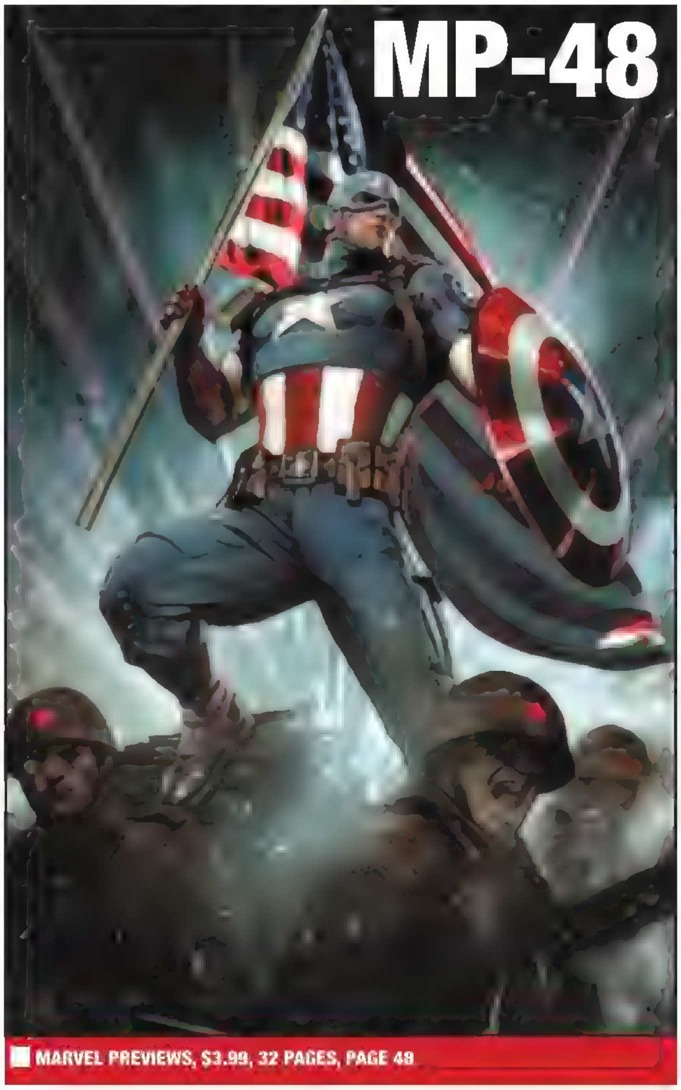
IN SIBERIA'S WASTES, CAPTAIN AMERICA WILL PROVE HE IS A LIVING LEGEND



MARVEL PREVIEWS, $3.99, 32 PAGES, PAGE 48

The destruction of an orbital research station inflames tensions between the United States and Russia. To keep the situation from spiraling out of control, the United States calls upon Captain America to infiltrate Russia alone and ascertain the circumstances of the station's destruction. There, among the Siberian wastes, Steve Rogers will find all of his martial skills put to test and he will come face-to-face with mysteries that stretch back seventy years to the closing days of World War II in Marvel Comics' new 4-issue mini-series from Andy Diggle, *Captain America: Living Legend!*

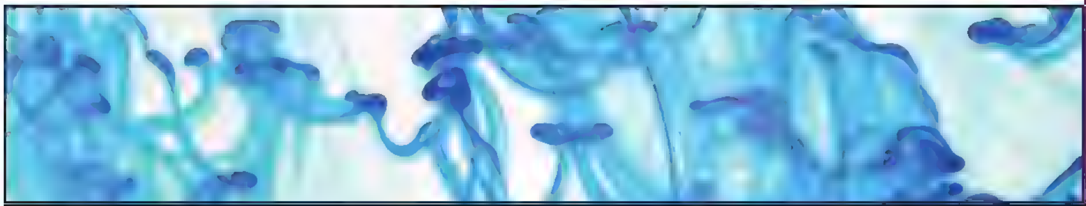
Diggle explores a facet of Captain America that has always been a part of the character but has often been downplayed in his role as a superhero and the moral compass of the Marvel Universe -- that of the soldier. The battlefields of western Europe in the 1940s and the Super Soldier serum shaped Steve Rogers' life, but the last decade's wars in Afghanistan and Iraq have required more nimble, smaller units than the massed infantry of seventy years ago. Captain America must adjust to the realities of the 21st-century soldier and modern warfare in *Living Legend*, operating on his own, deep within hostile territory, relying as much on his wits as on his martial prowess to achieve his mission.

That mission will find Rogers chasing a man he crossed paths with at the close of World War II, a man also thought lost on a failed Soviet lunar mission at the height of the Cold War, the decorated Soviet military officer Volkov. What happened to Volkov, and how does the fate of his mission to the moon forty years ago relate to the space station's destruction? Unraveling these mysteries will be the key to unwinding the tensions between the United states and Russia and pulling these two global superpowers from the brink of war.

Diggle is joined on *Captain America: Living Legend*'s first issue by Adi Granov. Beloved by fans and acclaimed by critics for his photorealistic painted covers, Granov turns his artistic attentions to comics interiors for the first time in almost five years.

A heady mix of geopolitical thriller and military technothriller, Diggle's *Captain America: Living Legend* is certain to be groundbreaking and one of the most talked about Captain America stories in recent years. More than just a super-hero story, *Captain America: Living Legend* will make you rethink the role of Captain America and the man who wears the costume. Look for the first two issues this October!

CAPTAIN AMERICA'S SKILLS WILL BE PUT TO THE TEST AS HE MUST INFILTRATE RUSSIA ALONE IN ANDY DIGGLE'S NEW THRILLER!



Weird science rules the day in the latest volume of the award-winning steampunk fantasy from Phil and Kaja Foglio, *Girl Genius Volume 12: Agatha Heterodyne and the Siege of Mechanicsburg*! LET PREVIEWS HELP HONE YOUR SKILL WITH "HOW TO DRAW" MONTH

This month, ***PREVIEWS***' How to Draw Month pays homage to the do-it-yourself spirit that launched the comics industry. Where would we be today if two young lads named Jerry and Joe didn't create their own comic book? Two guys — one a writer, the other an artist — launched a genre and forged a legend. Who will be the next Siegel and Shuster? Who will create the next comic book classic?

Many creators attempt to do just that each month. Some self-publish their own comics, some create fanzines and chapbooks. Some publish webcomics. Some of these creators are noticed by publishers large or small. Some of their creations catch on with the public, and some fail. Irregardless of where they wind up on the sales charts, however, these creators all started in the same place: at the drawing board.

Like any skill, creating comic books at any stage of the process — whether writing, penciling, inking, lettering, or coloring — requires practice and technique. Creators, at any skill level, can take advantage of How To Draw Month which spotlights books that will help you become a better comics creator. Whether you choose from books like Watson-Guptill's *DC Comics How To Guides*, Random House's *How to Draw Comics the Marvel Way*, WW Norton's *Will Eisner's Graphic Storytelling and Visual Narrative,* Harper Collins' *Reinventing Comics*, or any of the dozens more books featured with the "How to Draw" icon throughout the catalog, you will find tips and techniques that will help you to become the best comics creator you can be.

Twenty-five years since THE SANDMAN changed the landscape of modern comics, Neil Gaiman's legendary series is back!

THE SANDMAN: OVERTURE heralds *New York Times* best-selling writer Neil Gaiman's return to the art form that made him famous, ably abetted by artistic luminary JH Williams III (BATWOMAN, PROMETHEA), whose lush, widescreen images provide an epic scope to The Sandman's origin story. From the birth of a galaxy to the moment that Morpheus is captured, THE SANDMAN: OVERTURE will feature cameo appearances by fan-favorite characters such as The Corinthian,

Merv Pumpkinhead and, of course, the Dream King's siblings: Death, Desire, Despair, Delirium, Destruction and Destiny.

"People have often asked me what happened to Morpheus to make it possible for him to be captured in THE SANDMAN #1," Gaiman said. "And now they get to find out. And finding out, they get to learn secrets of the Endless that I've kept to myself for 25 years. Family secrets. And I should warn you: one of the Endless dies on page five."

The first issue of this 6-issue, bimonthly miniseries features a stunning double-page interior foldout.

This issue is also offered as a combo pack edition with a redemption code for a digital download of this issue.

COFFIN HILL stars Eve Coffin, a rebellious, teenage lowlife from a high-society family with a curse that goes back to the Salem Witch trials.

Following a night of sex, drugs and witchcraft in the woods, Eve wakes up naked, covered in blood and unable to remember how she got there. One friend is missing, one is in a mental ward—and one knows that Eve is responsible.

After a stint as a Boston cop that ends in a bullet wound and unintended celebrity, Eve returns to Coffin Hill, only to discover the darkness that she unleashed ten years ago in the woods was never contained. It continues to seep through the town, cursing the soul of this sleepy Massachusetts hollow, spilling secrets and enacting its revenge.

Set against the haunted backdrop of New England, COFFIN HILL explores what people will do for power and retribution. Noted novelist Caitlin Kittredge, author of the Black London series, brings a smart, mesmerizing style to comics. Artist Inaki Miranda (FABLES) brings his dynamic storytelling to COFFIN HILL, following an acclaimed run on FAIREST.

"I want to personally thank everyone for the TREMENDOUS response to our **Bud Sagendorf** Popeye reprints. The many emails I've received from the fans and the high praise from the critics are so exciting! Sagendorf is getting his due and being compared to Carl Barks and John Stanley. And who doesn't love POPEYE?! Now this issue is one of my faves—I loved it when Bud took Popeye out west. Plus I love the extra feature pages Bud drew for this ish! You will, too! Thanks again Popeye fans!"

Kill the Judge (pick your favorite option; we just like to shoot 'em in the mouth) 2. Pry off helmet, that big gold bird, boots, gloves, etc. 3. Secure Judge to spit carefully; dead Judges are heavy and tend to flop around as the spit turns. 4. A COMIC BOOK LEGAL DEFENSE FUND BENEFIT BOOK!
T ALES OF BLOOD & COURAGE!

CBLDF LIBERTY ANNUAL returns with Dark Horse editor-in-chief **SCOTT ALLIE** pulling together an all-star roster of writers and artists to battle censorship with 48 PAGES OF ALL-NEW stories! **TIM SEELEY** brings **HACK/SLASH** back for what might be the most bizarre tale in the series, and legendary creator Richard Corben tells the story of an underground cartoonist bringing back his most famous (and well-endowed) hero.

Everyone has a story to tell, but what happens when a story gets taken away from its creator? LIBERTY ANNUAL 2013 looks at the creative costs of censorship, either through the sort of outside interference the Comic Book Legal Defense Fund has fought for 27 years, or through more private forms. The Hoax Hunters battle a cable news program for the life of sasquatch, a young punk rock journalist examines Pussy Riot, and **MASKS AND MOBSTERS** writer **JOSH WILLIAMSON** answers the question, Wha t If Wertham Were Right?"

All proceeds from this book benefit the important First Amendment work of the **Comic Book Legal Defense Fund**, who've been fighting censorship in comics for over 25 years!

STORY / ART / COVER: RYAN BROWNE

OCTOBER 9
180 PAGES / FC / M
$17.99

GOD HATES ASTRONAUT follows the story of a group of incompetent, small-minded, super powered narcissists called "The Power Persons Five" who are hired by NASA to stop all farmers from launching themselves into space in homemade rocket ships. Unfortunately for NASA, this goal is scarcely even addressed and the book focuses more on extramarital affairs, bank-robbing owls, big gross swollen heads, ghost cow heads, olde tyme boxers, tigers eating cheeseburgers in the Crab Nebula, buffalo judges and tons of aggressive swearing. Not so much a superhero book as it is a parody of basically everything and a celebration of weird that is jam-packed with references to **RoboCop** and **Die Hard.**

"I don't want to oversell what Ryan has accomplished here, but I gave God Hates Astronauts to a blind man and he regained his sight."
— **JONATHAN HICKMAN** (**EAST OF WEST**, **THE MANHATTAN PROJECTS**, **THE AVENGERS**).

STEAMPUNK ORIGINALS VOLUME 1 GN
(W/A) Various
Goggles, gadgets, and gears: considering Steampunk on those terms is no less absurd then imagining our reality populated solely by electricians, hackers, and astronauts. Imagine a reality where steam-based technology and 19th century culture persisted. The Confederacy holds to Southern traditions while industry flourishes in the Union. The west is wild as the Apache fight to take back their land. Japan remains feudal under the shogunate, China struggles with opium addiction, and India is oppressed by the East India Company. Rebellions run rampant across mainland Europe while the British Empire seeks to colonize the globe. Steampunk can be as rich and diverse as our own reality. (STK617806)

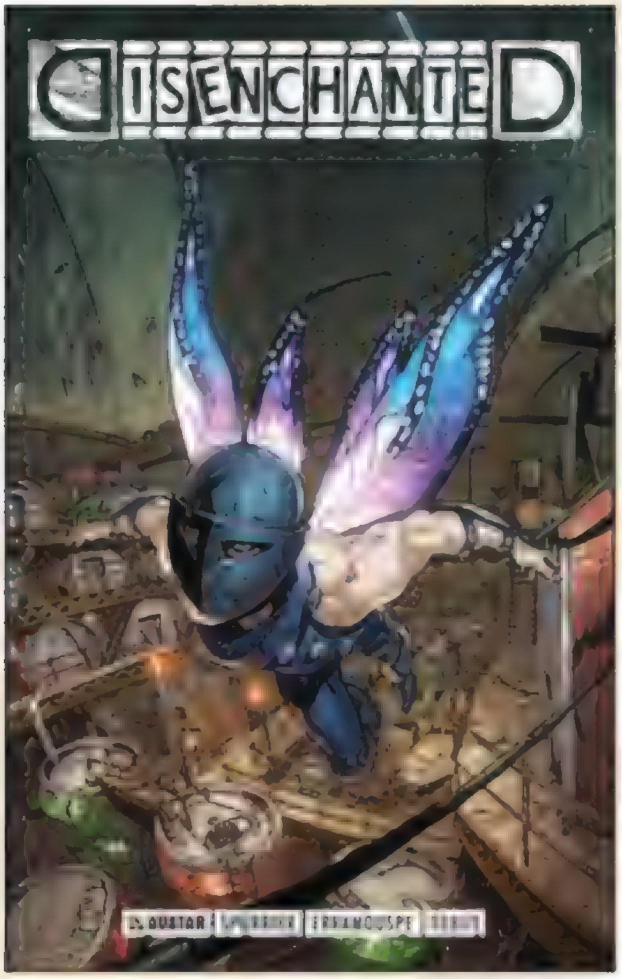
Regular Retail Price: FREE - MR, Color, 16 pages
Writer: Simon Spurrier - **Cover & Art:** German Erramouspe

halloweencomicfest.com HALLOWEEN ComicFest 2013 SPONSOR



Welcome to Vermintown! Disenchanted is a stunning new webcomic from writer Simon Spurrier that will be collected twice per year, following the model of Freakangels. This is the perfect chance to get in on the ground floor and be prepared to be swept into an immersive World of forgotten secrets anchored by a spectacular web site at www.disenchantedcomic.com!

Nobody gives a crap about the little people any more.

Once they were the mainstay of folklore: goblins, leprechauns, pixies and fey. But now? Dispossessed, forgotten, doubting even their own traditions, they've trickled into Vermintown: a vast and vile city of a million inch-tall malcontents. Sprawling through an abandoned subway station deep beneath London, here myth has given way to sleaze, drugs, gangland violence and interracial hatred. Vermintown is where magic went to die.

Written by Simon Spurrier (X-Men Legacy, Crossed: Wish You Were Here), with art by German Erramouspe (Night of the Living Dead), Disenchanted is an urban thriller slipping a rusty blade between the shoulders of the familiar fairytale. What do you do when nobody believes in you?

CRYPTOZOIC MAN #1 (of 4)

Walter Flanagan, Bryan Johnson (story) Bryan Johnson (script) Walter Flanagan (a/c)
FC • 32 pages • $3.99 • Teen+ • 10/9

From Walt Flanagan & Bryan Johnson of AMC TV's "Comic Book Men" comes "Cryptozoic Man"! Alan Ostman, a middle-aged husband/father, sees his life quickly unravel when his daughter goes missing on a camping trip in the Pacific Northwest... Bigfoot country. After gray aliens abduct him from a roadside bar, he learns that the fate of the world is dependent on trapping the world's most legendary cryptids... not to mention defeating a psychopath in a pig-shaped leather bondage mask. Alan knows he has his work cut out for him. The storyline revolving around this four issue series will be revisited in Comic Book Men Season III!

FANS, ASK YOUR RETAILER FOR THE:	**Walter Flanagan "negative effect art"** retailer incentive cover

AN INTERVIEW WITH WRITER BRYAN JOHNSON

What's CRYPTOZOIC MAN all about?
Our hero, Alan Ostman, is a cryptozoologist. Though well educated, he exists on the fringes of the scientific community and is regarded as a bit of a stooge owing to his wholesale belief in, and theories on, the existence of mythical beasts (as well as legendary places such as the Bermuda Triangle and Atlantis). After a series of traumatic experiences, he takes to drifting along the Northwest coast until he captures the interest of an eccentric billionaire whose interest in cryptids rivals his own... someone who holds a theory that these mythical beasts hold the key to inter-dimensional travel, proof of alien life, and the imminent 'end of days'. Time is of the essence as Alan learns that he and his new billionaire friend aren't the only two attempting to track and trap the cryptids. A deranged psychopath whose uniform is a finely tailored suit paired with a leather bondage mask resembling that of a pig's head has the same purpose with totally different ends in mind. Alan must decide whether the sacrifice proposed to him by a race of extraterrestrials – to become the Cryptozoic Man by offering up his humanity – is worth the payoff: the salvation of mankind.

What influenced the development of CRYPTOZOIC MAN?
Our formative years, the 1970's, were a wondrous era. The internet was still decades away from poking its educational and debunking nose into the lives of imaginative (read: kinda gullible) kids. Instead of Google, we had comic books, magazines, movies, and TV to look to for all our monster-related news. The butt of every paranormal loving kid at that time was firmly planted on the living room floor when once a week, Leonard Nimoy began the narration for *In Search Of*, a show about UFOs, ghosts, unexplained phenomena, killer bees (my personal favorite), and of course, cryptids... the mythical monsters. There was nothing more hypnotic than Bigfoot walking in slow motion across the screen of your 70's cabinet-style television only to almost imperceptibly pause, turn, and look directly into the camera. The story and premise really stem from our love of all things monstrous and creepy.

Stan "The Man" Lee gave CRYPTOZOIC MAN a glowing endorsement. What are your thoughts on the industry's living legend supporting the project?
Truth be told, it borders on surreal. If you were to go back to 1977 and tell a ten-year-old Walt Flanagan that one day, not only would he work at one of the best-known comic book stores on earth, not only would he be a professional comic book artist himself, not only would he star on a TV show about comics, but Stan the Man himself would leap from his soapbox page and land in front of the camera on that very same show to endorse Walt's work... well, thankfully there's no such thing as time travel because all that amazing news unloaded at once would have scrambled his tween brain beyond repair.

Have your experiences in comic retail influenced how CRYPTOZOIC MAN was created? Anything you can share about approaching the comic from the perspective of comic retail professionals?
The retailer is mostly ordering books focused on the superhero genre. Horror comics and other books that don't showcase guys in tights are normally a tougher, less popular sell. It's rare that a comic that isn't an 'event' book gets notice beyond the average reader. CRYPTOZOIC MAN has the advantage of TV exposure, which translates into bringing the atypical customer into the comic shop. You're going to see faces you don't normally see come through the door, which is always a good thing for retailers. With any luck, they come for the CRYPTOZOIC MAN and stay for some other titles.

What part has your experiences on the *Comic Book Men* television show played in the development of CRYPTOZOIC MAN?

Walt and I have done two different comic book series together. Our first, *Karney*, was turned down by every publisher until, at the zero hour, Chris Ryall at IDW rescued us from self-publication (which at that time, I felt anyway, was viewed as the last resort for any self-respecting author/artist). Obviously with *Comic Book Men* enjoying the level of success (Season III coming your way this October) and awareness it has, it's much easier to get someone to take notice and give you a few minutes to listen to your pitch.

Who should be reading CRYPTOZOIC MAN? What are some titles out there in the marketplace now that you think have a natural crossover audience for CRYPTOZOIC MAN?
Why, every man, woman, and child should be reading CRYPTOZOIC MAN! Okay, maybe it's not for everyone. I'd say anyone who digs the vibe of *In Search Of*, as I mentioned before, or who's into horror, time travel, and/or the apocalypse, is going to want to get in on this. I think if you're a fan of THE LIVING CORPSE or ARMY OF DARKNESS, this book is decidedly for you.

Give us a tease – what's a moment in the upcoming comic that you think will send chills down the readers spine?
The moment that leaps to mind is when a one-hundred story, demonic pig rises from an idyllic suburban neighborhood where the streets are flooded with the blood of sinners...

Anything else you'd like comic fans and retailers to know about CRYPTOZOIC MAN?
There's really nothing on the shelves quite like it right now. The process with Dynamite has been silky smooth and that's going to show on the page. CRYPTOZOIC MAN is the first time flawless synchronicity has been achieved amongst creators, publishers, and oversized demonic swine.

WOMAN REBEL: THE MARGARET SANGER STORY HC
(W/A/CA) Peter Bagge
Peter Bagge's *Woman Rebel: The Margaret Sanger Story* is a dazzling and accessible biography of the social and political maverick, jam-packed with fact and fun. Bagge presents the life of the birth-control activist, educator, nurse, mother, and protofeminist from her birth in the late 19th-century to her death after the invention of the birth control pill. Balancing humor and respect, Bagge makes Sanger whole and human, showing how her flaws fueled her fiery activism just as much as her compassionate nature did. Sanger's life takes on a whole new vivacity as Bagge creates a fast-paced portrait of a trailblazer whose legacy as the founder of Planned Parenthood is still incredibly relevant, important, and inspiring. ROOKIE
EDITED BY TAVI GEVINSON

ROOKIE YEARBOOK TWO SC

(W) Lena Dunham & Various

Rookie is an independent online magazine made by and for teenage girls. It was created by Tavi Gevinson in 2011, when she was just fourteen years old; today, about a third of the magazine's staff are teenage writers, photographers, and illustrators. Following the success of last year's print debut, the sophomore year is collected in *Rookie Yearbook Two*: a second anthology that's just as visually stunning as the first, and filled with even more content. Exclusive celebrity content will include contributions by Judy Blume, Grimes, Lena Dunham, and Mindy Kaling among others, making it a truly special product. The Rookie yearbooks combine personal essays by young girls; advice about style, sex, friends, and school; fashion; gorgeous photo albums; humor and pathos. (STK620848)

O/A BIG QUESTIONS

(W/A/CA) Anders Nilsen

A haunting postmodern fable, *Big Questions* is the magnum opus of Anders Nilsen, one of the brightest and most talented young cartoonists working today. This beautiful minimalist story details the metaphysical quandaries of the occupants of an endless plain, existing somewhere between a dream and a Russian steppe. A downed plane is thought to be a bird and the unexploded bomb that came from it is mistaken for a giant egg by the group of birds whose lives the story follows. The indifferent, stranded pilot is of great interest to the birds—some doggedly seek his approval, while others do quite the opposite, leading to tensions in the group. Available in both softcover and hardcover edition, the new hardcover printing is signed and numbered by the author. (STK443212) (C: 0-0-1)

ANDERS NILSEN

O/A DOGS AND WATER: THE DEFINITIVE EDITION HC (NEW PRINTING)

(W/A/CA) Anders Nilsen

A young man wandering a nameless path has only a stuffed bear as a companion, which inertly endures his desperation, anger, and musings along the way. The landscape is cold and bleak with few landmarks, and offers only precarious encounters with animals and armed men. He finds acceptance with a pack of dogs, though their nature is wild and their potential threat is as unsettling as the sudden presence of a massive pipeline on the horizon. In a dreamlike state, the endless land becomes a vast body of water where his boat is destroyed and his body floats in a subconscious space. All is uncertain and all can be lost, but he continues on regardless. (STK333826)

DON'T GO WHERE I CAN'T FOLLOW HC

(W/A/CA) Anders Nilsen

In this collection of letters, drawings, and photos, Anders Nilsen chronicles a six-year relationship and the illness that brought it to an end. *Don't Go Where I Can't Follow* is an eloquent appreciation of the time the author shared with his fiancée, Cheryl Weaver. The story is told using artifacts of the couple's life together, including early love notes, simple and poetic postcards, tales of their travels in written and comics form, journal entries, and drawings done in the hospital in her final days. *Don't Go Where I Can't Follow* is a deeply personal romance, and a universal reminder of our mortality and the significance of the relationships we build. PIPPI LONGSTOCKING VOLUME 1: PIPPI MOVES IN HC

(W) Astrid Lindgren
(A/CA) Ingrid Vang Nyman

The outspoken strong-girl with the carrot-colored pigtails and the mismatched socks has enthralled generations of children the world over with her fabulous exploits at Villa Villekulla, where she lives with her horse and monkey.The comics are reimaginings of the classic chapter book stories and were originally published in the Swedish magazine *Humpty Dumpty* in 1957-1959, a decade after the original books. The comics spotlight both Lindgren's brilliant writing and Vang Nyman's bold bright colors that seem presciently and eerily modern. (STK474164) (C: 0-0-2)

In addition to its 50-plus regular writers, photographers, and illustrators (many of whom are teenage girls themselves), *Rookie's* contributors and interviewees have included prominent makers of popular culture such as Lena Dunham, Miranda July, Joss Whedon, and Jon Hamm. THE DC COMICS GUIDE TO CREATING COMICS: INSIDE THE ART OF VISUAL STORYTELLING

Watson-Guptill

Art Adams, Jim Lee, Whilce Portacio, Mike Mignola, *The Punisher*, *Power Pack*, and *Alien Legion* — what do they all have in common? Carl Potts.

Carl was either a mentor or editor to these top professionals at the start or early in their careers. He helped guide books like *Power Pack* and *Strikeforce: Morituri* to become Marvel's most critically acclaimed series.

In the newest book in Watson-Guptill's *DC Comics Guide To* series, *The DC Comics Guide to Creating Comics: Inside the Art of Visual Storytelling*, Carl's expertise is made available to creators looking to work for the major corporations as well as independent publishers. This book goes beyond the typical art and writing lessons, showing readers how to take full advantage of comics' sequential visual storytelling possibilities. Potts uses examples direct from DC Comics, featuring top creators and classic characters like Batman and Superman, presenting key principles and techniques for crafting exciting professional-quality comics.

Current DC Comics Co-Publisher Jim Lee provides the Foreword, giving Carl high praise as the man who mentored him and whose lessons helped him become one of the industry's popular artists.

This new addition to Watson-Guptill's series is timed to coincide with our yearly How-To-Draw theme and combining tutorial with practical application. This is an excellent book to add to a reference library that should contain all previous volumes of the DC series, the Will Eisner series, the George Bridgeman series, the Scott McCloud series, and *How to Draw Comics the Marvel Way*.

by Blake Bell and Dr. Michael J. Vassallo

$35.00 / HC / 300 pgs / FC / 7.25 x 10

The book features works by Marvel Comics artists such as Jack Kirby and Joe Simon, Alex Schomburg, Bill Everett, Al Jaffee, and Dan DeCarlo, plus the very best pulp artists in the field. (A/CA) Joann Sfar

Pascin, a biography of the noted Jewish modernist painter (Julius Mordecai Pincas, known as Pascin, March 31, 1885-June 5, 1930), is Joann Sfar's most personal and important work. Pascin is portrayed by Sfar both as a kindred spirit and an aesthetic revolutionary struggling to redefine an art form. Sfar revels in the artist's celebration of all things corporeal in the world of art. Created in a direct and immediate drawing style, Sfar focuses more on the artist's personal and sexual life than on his art, and brings Pascin to life as the ultimate bohemian. IMAGINE AGENTS #1

BOOM! Studios

Everyone had an imaginary friend when they were younger. It's a childhood staple like juice boxes and tree forts. *Imagine Agents* from BOOM! Studios brings you a series about those invisible friends and the agents keeping them in line.

I've read the first issue and quite enjoyed it because it's friendly enough for me to feel comfortable giving my nieces and nephews to read, but on a level where I don't feel like I'm reading a children's book. Furdlegurr is, by far, the cutest imaginary friend I have ever been introduced to and that is all I can say without giving away plot spoilers. The entire concept that "imaginary" friends are actually real makes you think twice about whether or not your child sees an "imaginary" friend, or if that friend is real, and you just can't see them.

Pick up a copy of *Imagine Agents* when it hits stores late-summer/early-fall. Pick up a copy for yourself, or for your child, or for that special youngster next door. It's a heartwarming, cuddly tale for all-ages.

It manifests itself in everything from seashells and whirlpools in water to the spiral marks on people's bodies, the insane obsessions of Shuichi's father and the voice from the cochlea in our inner ear. BOMBING NAZI GERMANY GN

(W/A/CA) Wayne Vansant

Meticulously researched and illustrated, *Bombing Nazi Germany* tells the story of the first and second generations of airmen, soldiers, and politicians from both sides who sought to bomb the enemy into submission. Vansant traces the development of the wildly controversial Strategic Bombing doctrine in the 1920s and 1930s, the early stages of WWII and the dominance of the German Luftwaffe, and the eventual 1942 involvement of the United States' 8th Air Force and its vast fleet of B-17 and B-24 bombers. Vansant also illustrates the lesser-known perspective of the brave German pilots five miles above the earth who fought not to protect Hitler's Reich, but their homes and families. BABEL13
NEUROSHIMA HEX!

First Time in Previews! Neuroshima HEX is a game of tactics, where armies wage continuous battles against each other. It is based on the *Neuroshima RPG* published by Portal in 2001. And while being familiar with the RPG is not necessary, players will find it easier to identify with their armies if they have read or played the game. The world of *Neuroshima RPG* is that of a post-apocalypse world torn apart by a war between humans and machines. The remains of humanity took shelter in the ruins of cities and organized in small communities, gangs and armies. Conflicts between such groups are not uncommon and the reasons of such are numerous: territory, food or equipment. What is more, the ruined cities are constantly patrolled by machines sent from the north, where a vast cybernetic entity, called MOLOCH, appeared. Great wastelands that surround what was left of the greatest cities are home to another enemy — Borgo — a charismatic leader who controls an army of gruesome mutants. One of the last hopes of humanity is the Outpost, a perfectly organized army which wages a guerilla war against MOLOCH. Nevertheless, most human settlements, including the Hegemony, are not concerned with war until it comes banging at their door. Such is the world of *Neuroshima!* (STK469325) (C: 0-1-2)

THE KROTONS

DOCTOR WHO: THE KROTONS ORIGINAL SOUNDTRACK

From Silva Screen Records! Generating and manipulating music and sound effects defines sound design, a process that is common on TV and film productions nowadays. However, The BBC Radiophonic Workshop was way ahead of the game in the 1960s. Brian Hodgson was a member of the Workshop working closely with the seminal figure of Delia Derbyshire. As the original sound effects creator for Doctor Who, he was responsible for the chilling Dalek voices and the powerhouse sound of the Tardis lifting off (created by running a back door key for his mother's house along the bass string of a gutted piano and treating it electronically). His highly innovative techniques are fully on display on this collection of 'special sounds' that provided the background to *Doctor Who - The Krotons*, broadcast in December 1968/January 1969. THE DOG DAYS OF SUMMER:

COMICS GO TO THE DOGS!

Dogs have been an integral part of mankind's development for thousands of years. The origin of the domestic dog (*Canis lupus familiaris*) began with the domestication of the Grey Wolf (*Canis lupus*) several tens of thousands of years ago. These early domesticated dogs provided early humans with a guard animal, a source of food, fur, and a companion.

Since the dawn of the Comic Book ages, Dogs have also been an integral part of publishing, from roles as superhero sidekicks, comic relief, and adventure heroes.

In these sweltering "Dog Days of Summer" (Wiki that term, it is very interesting!), we thought it would be fun to share some of the many, many dog comic book covers that have been published in the almost 80 years of comic books!

THE DC COMICS GUIDE TO CREATING COMICS: INSIDE THE ART OF VISUAL STORYTELLING

Watson-Guptill

Art Adams, Jim Lee, Whilce Portacio, Mike Mignola, *The Punisher*, *Power Pack*, and *Alien Legion* — what do they all have in common? Carl Potts.

Carl was either a mentor or editor to these top professionals at the start or early in their careers. He helped guide books like *Power Pack* and *Strikeforce: Morituri* to become Marvel's most critically acclaimed series.

In the newest book in Watson-Guptill's *DC Comics Guide To* series, *The DC Comics Guide to Creating Comics: Inside the Art of Visual Storytelling*, Carl's expertise is made available to creators looking to work for the major corporations as well as independent publishers. This book goes beyond the typical art and writing lessons, showing readers how to take full advantage of comics' sequential visual storytelling possibilities. Potts uses examples direct from DC Comics, featuring top creators and classic characters like Batman and Superman, presenting key principles and techniques for crafting exciting professional-quality comics.

Current DC Comics Co-Publisher Jim Lee provides the Foreword, giving Carl high praise as the man who mentored him and whose lessons helped him become one of the industry's popular artists.

This new addition to Watson-Guptill's series is timed to coincide with our yearly How-To-Draw theme and combining tutorial with practical application. This is an excellent book to add to a reference library that should contain all previous volumes of the DC series, the Will Eisner series, the George Bridgeman series, the Scott McCloud series, and *How to Draw Comics the Marvel Way*.

BATTLING BOY VOLUME 1 GN

:01 First Second Books

Monsters swarm over Acropolis' sprawling streets. Children are dragged into the night. A nightmare gang has claimed the life of the city's greatest vigilante, plunging citizens into despair. Battling Boy, hailing from a Kirby-esque race of gods, arrives on the Flash Gordon-style planet to prove himself in combat and become a true hero. The tale itself is simple at its heart: the making of a hero from an awkward young everyman, but it's a story that comic fans delight in hearing and one that Paul Pope builds up masterfully. Battling Boy must push beyond his limits, must accept both assistance and responsibility, and fight with absolutely everything he's got.

Pope was born to draw griffins and gods and things that eat tanks. His action scenes snap and sizzle through Battling Boy's struggles. Pope's fluid line work makes the capes ripple, the sweat flow, and the smoldering smoke coil and wreath. His expressive adults fret and bluster their way through negotiations with a pre-teen hero. Not only will First Second be proudly launching the amazing first volume of this limited series in this catalog, but PictureBox will be rolling out the artbook *Paul Pope: The Road to Batting Boy*. Look for both of these heroic additions to your library this fall!

OTHER STORIES AND THE HORSE YOU RODE IN ON

Conundrum Press

Though this is his first book, you may recognize CCS graduate Dakota McFadzean's work from Best American Comics 2012. In a standout year featuring new work from giants like Chris Ware, Jaime Hernandez and Chester Brown, McFadzean's 32-page minicomic "Leave Luck to Heaven" was also selected as the best of the best — and as this collection shows, it is just one of many highlights in an inventive and evolving body of work.

Other Stories dabbles in gags like "Invincible Baby," but its best and longest pieces lean toward magical realism. Other Stories collects early work from a creator with exciting ideas and the potential for many strong books to come. Whether you're a fan of short stories or graphic storytelling (or both!), this volume earns its spot in your library.

IMAGINE AGENTS #1

BOOM! Studios

Everyone had an imaginary friend when they were younger. It's a childhood staple like juice boxes and tree forts. *Imagine Agents* from BOOM! Studios brings you a series about those invisible friends and the agents keeping them in line.

I've read the first issue and quite enjoyed it because it's friendly enough for me to feel comfortable giving my nieces and nephews to read, but on a level where I don't feel like I'm reading a children's book. Furdlegurr is, by far, the cutest imaginary friend I have ever been introduced to and that is all I can say without giving away plot spoilers. The entire concept that "imaginary" friends are actually real makes you think twice about whether or not your child sees an "imaginary" friend, or if that friend is real, and you just can't see them.

Pick up a copy of *Imagine Agents* when it hits stores late-summer/early-fall. Pick up a copy for yourself, or for your child, or for that special youngster next door. It's a heartwarming, cuddly tale for all-ages.
